Reviews

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

This item is printed on demand - Print on Demand Neuware - The changing status of the Army Warrant Officer from inception to the present has created a situation whereby the warrant officer education system is beginning to closely parallel commissioned officer education. This seems to be occurring despite the fact that the warrant is defined as a highly skilled technician and not a high level manager. This study looks at the warrant officer career program as designed and used, and finds that the Warrant Officer Senior course seems to continue the thread of more and generalized education for warrant officers. This study recommends that the Warrant Officer Senior course be eliminated as it is training technical specialists for general management positions. 94 pp. Englisch.
